

# Student reactions to the FLASH curriculum

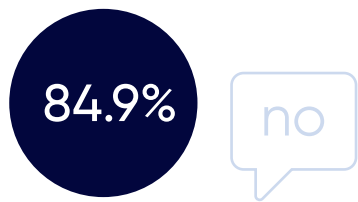

n = % 9th & 10th graders from the Midwest and South who agree or strongly agree with each statement (total respondents=959)

I will be able to use the information and skills I learned in the FLASH lessons.

Because of FLASH, I would be more likely to use birth control myself or ask a partner to use birth control, if needed.

Because of FLASH, I would be more likely to tell a partner I do not want to have sex, if needed.

I felt like FLASH was **AMAZING** and **HELPFUL**.

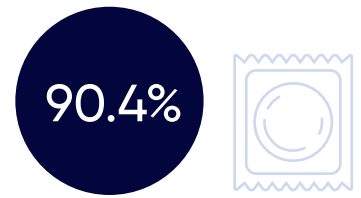

FLASH can really help young kids in our generation.

FLASH helped me say no to sex without protection.

It makes me feel better when I talk to adults.

I feel like they should **KEEP THIS GOING**, it was a fun experience.

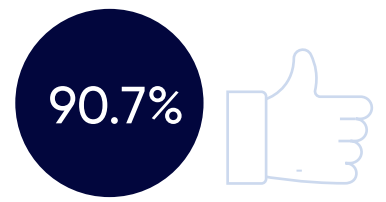

FLASH taught me and my peers a lot especially when it comes to social stuff like **NOT JUDGING EACH OTHER**.

Because of FLASH, I would be more likely to use a condom myself or ask a partner to use a condom, if needed.

Because of FLASH, I would be more likely to get tested for STDs, if needed.

I would recommend FLASH to a friend.
